LANGUAGE

JavaScript Python Java

FRONTEND

React Next.js

BACKEND

Node.js

TOOLS

Ethers.js Git Docker Linux

ABOUT ME

Software Developer who loves thinking in systems — designing architecture, building from scratch, and figuring out how things work under the hood. Currently a CS student with internship experience, always experimenting with AI and building something worth breaking.

EDUCATION

Bachelor of Informatics Engineering 2024 – Present
Institut Teknologi Nasional Bandung (ITENAS)

Computer & Network Engineering 2021 – 2024
SMK TELKOM BANDUNG

EXPERIENCE

IT Helper Intern · PT Pindad May – Sep 2023
Bandung, Indonesia
Performed troubleshooting and hardware repairs on PCs, laptops, and printers. Routine maintenance of network infrastructure including routers, switches, access points, and LAN cabling.

PROJECTS

SmartLock 2024
IoT × Blockchain Door Lock System · ESP32 + Smart Contract
A smart door lock system integrating IoT hardware (ESP32 + RFID RC522) with a blockchain-based smart contract. Door access can be controlled via a web interface.
ESP32 RFID RC522 Solidity Foundry Node.js

Voting DApp 2024
Decentralized Voting Application
A decentralized voting application built on smart contracts, enabling a transparent and tamper-proof voting process.
Solidity JavaScript Ethers.js Web3

CERTIFICATIONS

Field Work Practicum Certificate 2023
PT. PINDAD

INQF Level II – Computer & Network Engineering 2024
BNSP
